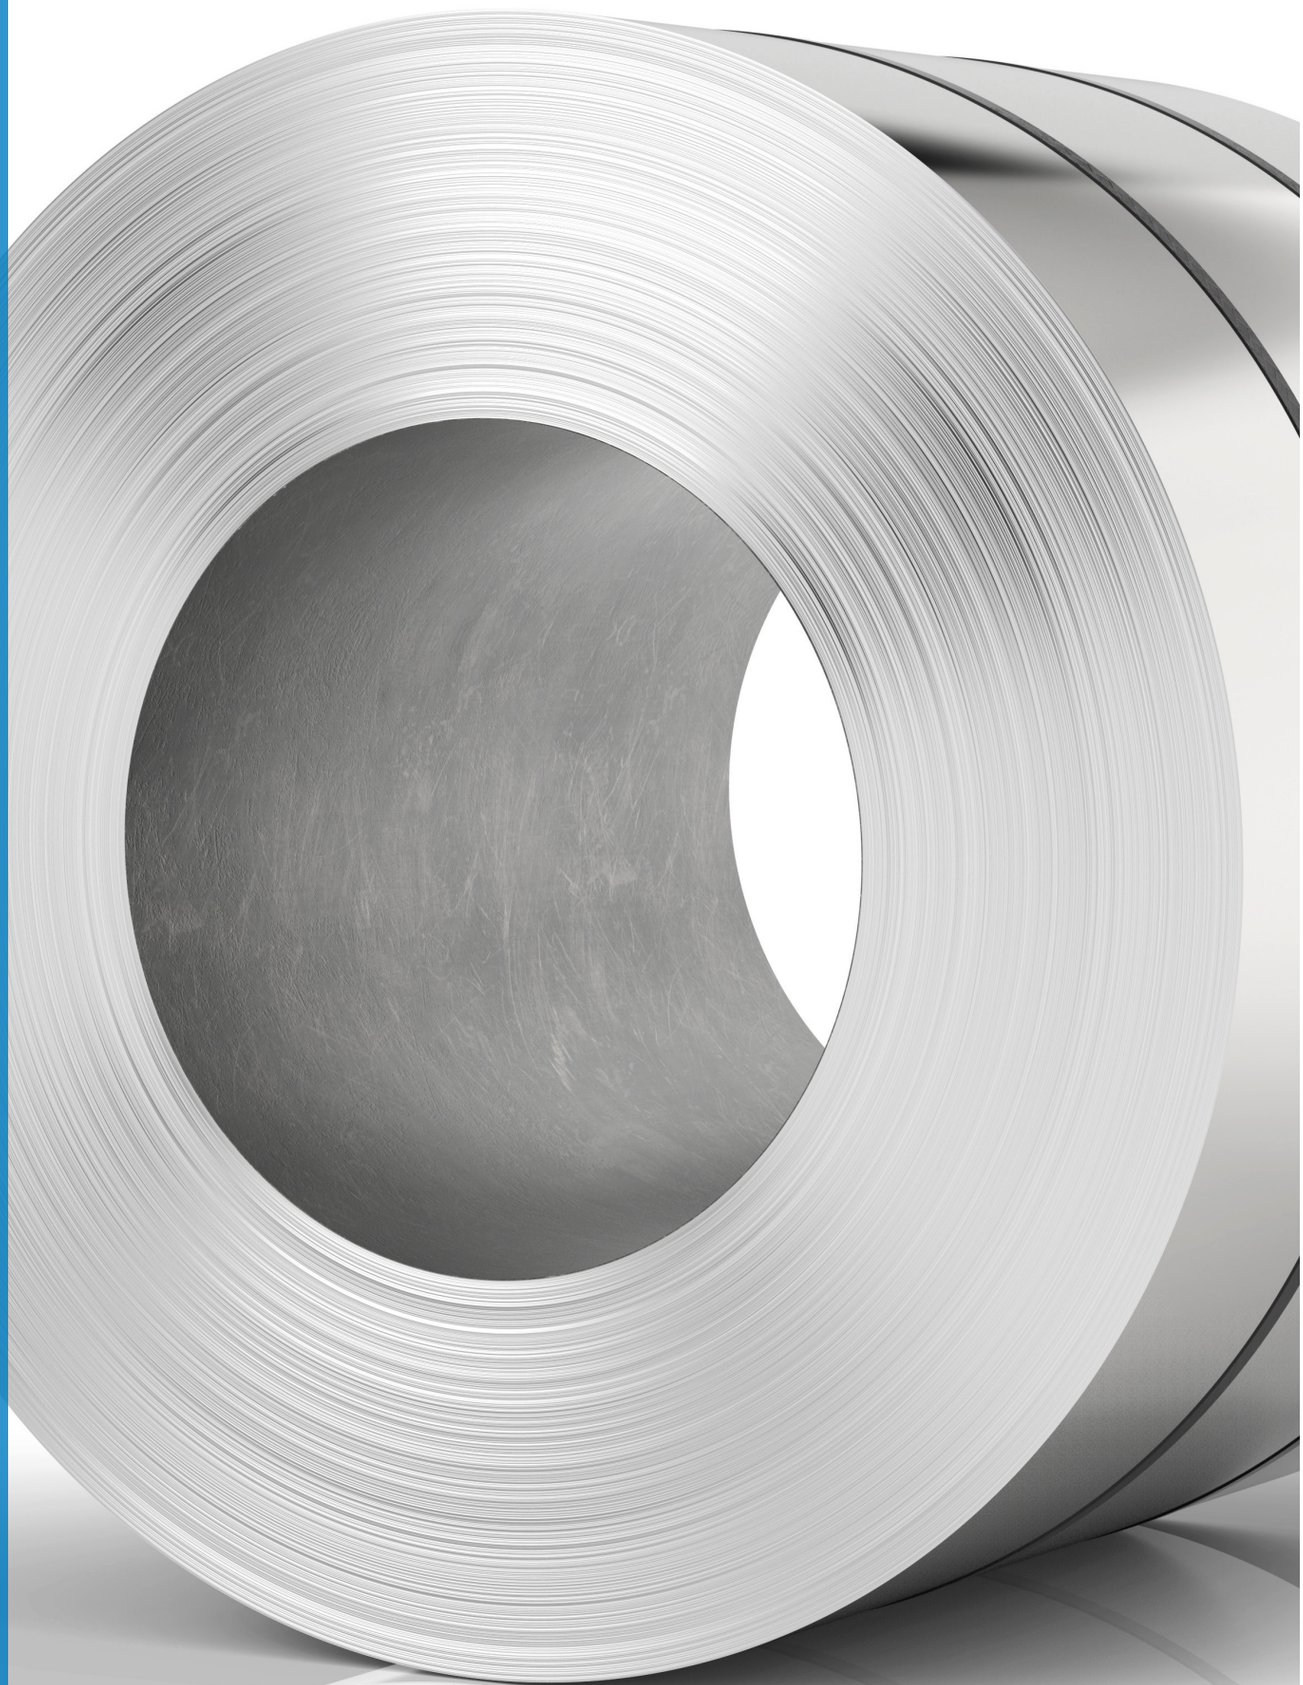
GROWING TO BE THE BEST SINCE 1959



MILL STEEL
COMPANY

OUR PEOPLE

Harry H. Samrick founded Mill Steel in 1959 with little more than a phone, a basement desk and the idea that superior service and good business ethics could lead to success. The culture that Harry created has made Mill Steel one of the premier flat-rolled and coated steel suppliers in North America. Now Harry's son, David S. Samrick (CEO & Chairman), and granddaughter, Pam Heglund (President), alongside fellow partners - Carl Quenneville (SVP & CCO), Joe Poot (VP Purchasing), Rob Vella (VP Operations), and Marc Rabitoy (CFO) - continue to lead Mill Steel with steadfast dedication to superior quality, delivery, and performance.

Mill Steel has been repeatedly named one of the 101 Best and Brightest Companies to Work For by the Michigan Business & Professional Association (MBPA). In addition, the MBPA has presented Mill Steel with multiple Elite Awards for its outstanding people-first culture. The company continues to grow by consistently operating with integrity, and putting its customers and associates first.

People matter at Mill Steel.

High-quality products start with high-quality materials.

Mill Steel guarantees exceptional quality with every order. Through our vast relationships with North America's leading steel producers, in-house A2LA testing facilities, and some of the best technical minds in the business, we ensure you get the highest quality steel every time.

We Are Experts In:

- Hot-rolled
- Cold-rolled
- Coated steel products
- Pre-painted steel products
- Specialty grades and HSLA products

OUR PROCESSES

Our customers are held to high standards, so we hold ourselves to the same.

When you buy from Mill Steel, you can trust that we will deliver to the exact specifications you require, precisely when you need it. Mill Steel is ISO 9001, IATF 16949 certified and ISO 14001 compliant. With A2LA ISO 17025 accredited labs, we provide full material certification with each shipment. In addition, the expertise of our full-time metallurgists ensure you are getting the best product every time.

We Are Experts In:

- Slitting
- Pickling
- Cut-to-Length
- Narrow Cut-to-Length
- Round Edge Conditioning
- Leveling & Inspection
- Metallurgical Service & Coil Testing

We understand.

Our customers face short lead times, tight margins and rigorous quality standards. We tailor our business processes to help take the pressure out of meeting those challenges.

The Mill Steel Difference:

- 30 strategically located production lines support short lead-time deliveries
- IATF 16949 - and ISO 9001 - certified processes and our A2LA accredited laboratories
- Our Rapid Response Team at rapidresponse@millsteel.com responds to steel inquires within five minutes
- Get quick, expert answers to product questions at quicktech@millsteel.com
- Metallurgists can be deployed at a moment's notice to save you time and money, or to pinpoint the best product for your requirements
- Vast inventory stock for JIT distribution to minimize carrying costs and optimize assets
- We support new programs by sending experts from our fulfillment and metallurgical teams to your location-ensuring a disruption-free startup

WE ARE WHERE YOU NEED US.
