

## Environmental Policy

Mill Steel Company is committed to protecting and conserving the environment while meeting federal, state, and local regulations.

As a responsible corporate citizen, Mill Steel Company strives to minimize the impact of its operations on the environment through continuous improvement of the following principles.

- reduction of waste
- air quality
- water quality and consumption
- chemical management
- reuse and recycling
- energy efficiency

Mill Steel Company will act responsibly in providing the necessary support to ensure that the foregoing objectives are achieved.
